## PROFILE SUMMARY

---

I am a Business-oriented software professional with 3+ years of experience working on ERP, E-Health, and CMS systems in Agile environments. Experienced in gathering and documenting business requirements, coordinating with stakeholders, managing backlogs and supporting sprint activities, and translating functional needs into technical solutions. Strong background in system documentation, KPI-driven solutions, and cross-functional collaboration. Passionate about supporting public-sector digital transformation initiatives.

## TECHNICAL & BUSINESS ANALYSIS SKILLS

---

### ➤ Business Analysis & Project Support

- Business Requirements Gathering & Analysis
